## **Jan Meeting 1/13/2026**

The Genealogy Club meets at 1:30pm in the Liberty Classroom

Our January 13th meeting will be presented by Bud Williams on "Welsh Heritage and Quaker Ancestors". This will include some of the different ways he records members of his family tree (13,000 names); a different slant on record keeping.

For the February 10 th program will be from WONDRIUM on "Identity in the Age of Ancestral DNA", a DVD video presented by Anita Foeman of West Chester University. Segments include:  
1. What genetic testing brings to ancestry and  
2. Privacy versus connection in DNA testing.  
We thank Bill Haas for this resource.

A recent survey (YouGov) found 1 in 5 Americans (21%) has taken a DNA test and for the over 65 population the number rises to 28%.

The March 10 program will feature a local speaker on Genealogy. Details will be announced later.

We recently became aware of another on-line genealogy resource. Please check out usgenweb.org and give us your opinion.

If you see a January/February 2026 copy of the Erickson Senior Living Tribune look for page 14 for a brief article on genealogy at another Erickson Community.

Please pay your dues in January so you will be able to receive the annual update of the Club's access to Ancestry (name and password) in March 2026

Our Club access to Ancestry.com is a Library account which allows multiple users. Do Not attempt to change profile information; Do Not make a purchase on our Club account and Do Not request two-step verification. This is a shared account to benefit all our members
